> CHICAGO, June 2.-Weakness of quotations in Liverpool had a depressing effect today on the wheat market here. British advices told of heavy arrivals of supplies, and predicted that abundant receipts would continue. There were also reports of beneficial rains in Australia, and of an available stock there, 50,000,000 bushels more than at this time last year.

Corn Prices Ease Off.

Corn eased off with wheat. Profit-

taking by shorts, however, tended to prevent any radical decline. After opening ¼ to ¾a½ lower, the market underwent an additional sag.

No independence was shown by oats. The downward fluctuations, though, appeared to lack force.

Provisions had no aggressive support. Pork, especially, was weak.

A decided break in wheat prices took place later as a result of reports that a battle in the North sea had resulted in the loss of eight British warships. The market closed weak, 2a2¼ to 2¼a2¼ net lower, with July at 1.03½, and September at 1.05%.

News of the North sea battle had but little influence on the corn market. Prices closed steady at ½a% to % net decline.

The Safest Investments

Are those that do not fluctuate during disturbed conditions of the money or stock market. First deed of trust notes (first mortgages), well secured on real estate in the District of Columbia, constitute "gilt-edge" investments. They do not depend upon the financial responsibility of individuals or corporations for their stability and are exempt from taxation as personal property. We can supply such investments in amounts from \$500 upward. Send for booklet, "Concerning Loans and Investments."
